PROFESSIONAL SOLUTIONS FOR SURFACE REPAIR

PREMIUM QUALITY.

ONLY THE BEST FOR THE BEST.

RENOLIT COVA HORNSCHUCH

The PREMIUM Window Pen - recommended by RENOLIT and other leading manufacturers - has been the flagship model in the window industry for years. The pen system was specifically developed for application on window surfaces: the plasticiser-resistant paint guarantees optimal adhesion, the special valve technology ensures even paint flow, and the optimised, replaceable tip enables not only painting of different mitre slots but also precise work in difficult areas (corners, tight spaces) due to variable line widths. Additionally, the interchangeable tip contributes to a longer service life, higher cost-effectiveness, and sustainability of the pen. Thus, the perfect interaction of the pen's individual components makes the PREMIUM Window Pen unbeatable!

GEALAN VEKA ALUPLAST DECEUNINCK PROFEL SALAMANDER ALULUX

For this special pen, there is, of course, a special variety of colours available! You can find numerous foil colours from renowned manufacturers and profile suppliers in our range. If the colour you need is not available, our colour matching service is at your disposal: we precisely match the colours to the desired foil or profile. Contact us via sales@heinrich-koenig.de

For over 130 years, our company has been at the forefront of innovation and excellence in the field of surface restoration. Our founding promise to deliver high-quality solutions and products that withstand the test of time is the foundation upon which our brand rests. With pride, we present in this catalogue the latest achievements and proven restoration materials that stem from our long-standing tradition.

With a wide range of products for surface restoration, we offer our customers solutions for a broad spectrum of application areas. Our deep understanding of the challenges and requirements of surface restoration has led us to create solutions that are not only efficient and sustainable but also preserve the aesthetics and functionality of surfaces.

With innovative products like our King Airbrush System, we enable you to perform professional restoration even under challenging conditions. Alongside our high-quality paints, the novel cartridge system allows you to carry out your painting work efficiently and precisely. We also offer empty cartridges for filling your own paints, allowing compatibility with other paint systems using the King Airbrush System.

Furthermore, we provide our customers with individually tailored products and solutions in holistic concepts – for end consumers, these are our picobello® products. For B2B customers, developing colours specifically tailored to their wishes and needs for our fillers and paints is part of our services. Upon request, we configure restoration sets individually for our customers, considering their requirements for the presentation and composition of our products.

Next to the great diversity of our products, we support our customers with our long-standing expertise. For training and the imparting of restoration knowledge, our experienced technicians are available at our training centre in Niederdorfelden or on-site at your location.

We invite you to browse through this catalogue and discover the diversity and depth of our offerings. Let us look together towards a future where tradition and innovation go hand in hand. With each project we undertake, we recommit ourselves to setting and surpassing standards for quality, sustainability, and beauty in surface restoration. Because for us, tradition is also a promise for the future.

FILLERS / WAX

FOR WOOD, DÉCOR, PLASTIC, METAL, CERAMICS, AND MORE...

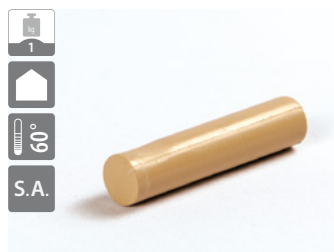

Find suitable filler materials for your surface and various types of damage. All fillers are high-quality products, distinguished by the following features:

- Optimally adjusted for different demands and for different surfaces such as wood, décor, plastics, metal, ceramics, natural and artificial stone
- Suitable for indoor and partially for outdoor use
- Can easily be levelled with the Special Fillers Applicator, the Combination Planer or the Metal Planer
- Overcoatable with any Sprüh-König® aerosol lacquer

- Hardness level: 1 (very soft) to 10 (extremely hard)
- Suitable for indoor use.
- Suitable for outdoor use.
- Melting point in °Celsius
- Custom colours available as special orders.

QUICK FILLER

Uses

Ideal to repair fine scratches and hairline cracks on décor surfaces in interior areas. Rub in and level with the Special Fillers Applicator. Recommended for indoor use and for surfaces that are not subject to severe use.

Characteristics

Easy and quick processing. Good overcoatability and easy to seal. Melting point at 60°C.

HARD WAX

Usage example: Select multiple shades, melt, and introduce them in the direction of the grain. Remove excess wax with the Special Fillers Applicator. The wood texture can be adjusted with corresponding colours. Finally, seal the repaired area with a Brush Pen Clear Lacquer or Sprüh-König® Special Repair Lacquer PLUS to protect it from dust and dirt.

Uses

To repair deep scratches, holes and edge damage to real wood and décor surfaces in interior areas. Melt, apply and level with the Combination Planer or the Special Fillers Applicator.

Characteristics

Hard, melts at 81°C, good elasticity. Available in 8cm and in 4cm sticks. All colours can be intermixed.

HARD WAX PLUS

Usage example: To begin, pre-colour the damaged area on the window profile using the PREMIUM Window Pen. Then, melt the Hard Wax PLUS and fill the damaged area. Remove any excess wax using the Special Fillers Applicator or Combination Planer, and degrease the area with the fleece. Finally, adjust the gloss level and seal the repaired area using Sprüh-König® Furniture Lacquer PLUS.

Uses

Especially for scratches, holes and edge damage to real wood, artificial and décor surfaces in the kitchen, window and flooring sector. Suitable for indoor and outdoor use. Melt, apply and level with the Combination Planer or Special Fillers Applicator. By the way: You will find an overview of the most popular Renolit/Cova/Hornschurch in our colour chart.

Characteristics

Very hard, melts at 115°C, good elasticity, dimensionally stable from -20° to +110°C. Available in 8cm and 4cm sticks. All colours can be intermixed.

REX-LITH¹⁾

Usage example: Apply the Rex-Lith¹⁾ filler compound (pre-mix Rex-Lith¹⁾ and hardener¹⁾) in small portions into the damaged area, pressing it in until it's completely filled or slightly overfilled. Once cured, level off any excess with a Metal Planer. Clean the surface before retouching. Then, seal the filled area with Sprüh-König[®] Furniture Lacquer PLUS. If necessary, recreate the base colour and grain using the Touch-Up Paint Box. After retouching, seal the area with Sprüh-König[®] Furniture Lacquer PLUS.

Uses

Ideal to repair major damage to corners and edges of real wood, décor and metal surfaces in interior areas. (If used outside, a UV-stable sealer has to be applied).

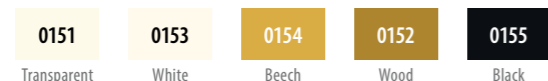

Characteristics

2A solvent-based two-component filler, extraordinarily hard, little shrinkage (1-2%), can be treated mechanically after curing. Curing time: 20-30 min. Can be coloured with König touch-up materials.

*Accessories:

DUO: 2x Hardener¹⁾, 2x Transparent Plastic Film, 2x Spatula and 2x Tube Squeeze Key.
Tube: 1x Hardener¹⁾, Transparent Plastic Film, Spatula and Tube Squeeze Key.
Can: 2x Hardener¹⁾, 2x Transparent Plastic Film und 1x Spatula.

EFFECT WAX

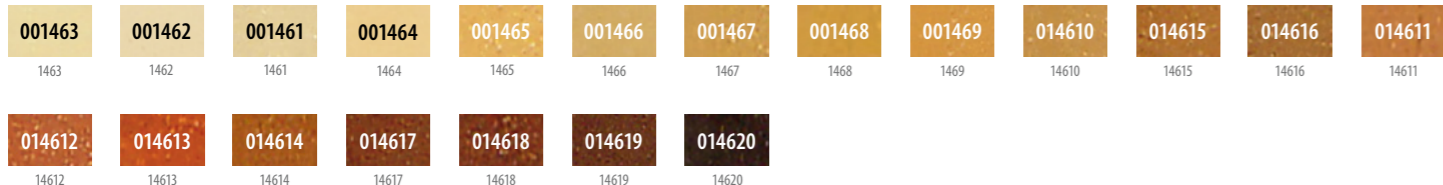

Uses

For real wood surfaces whose colour effect changes with changing light (e.g. for Maple or Mahogany). Melt, fill in and level with the leading edge of the Combination Planer or Fillers Applicator.

Characteristics

Hard, melts at approx. 81°C, transparent colour setting, contains effect pigments, Available in 4cm sticks.

Available in the following colours:

Art.No.

146004
146004-010
146770-010

Product Name

Stick 4cm, standard colour at choice*
20x 4cm, standard colour at choice*
20x 4cm, Series 770, Wood Tones
* Add the desired colour number to the order code.

Further information, application video, safety data sheet, and the available colours up to date: Scan the QR code and you'll find all the information.

MIXED COLOR SHADES SET

Uses: Assortment of different wax qualities (no. 130 to 143) for fine colour adjusting and for transparent effects. Transparent fillers: For the translucent adjustment of König waxes and for the repair of pressure marks on real wood surfaces without lacquer crack. Basic shades: To tint König waxes.

Content: 1x Quick Filler: Transparent 0901; 1x Soft Wax: 0901; 9x Hard Wax: Yellow 0915, Red 0917, Green 0918, Blue 0919, RAL 9005, RAL 9010; Transparent: 0902, 0901, 0900; 2x Hard Wax PLUS: Transparent 0902, 0900.

IF-139 PLUS | 30CM STICKS AND GRANULES

PLEASE ALSO TAKE A LOOK AT PAGE 35, WHERE YOU WILL FIND OUR NEW IF-139 PRO SET!

Example of use: Inject IF-139 PLUS directly into the area to be filled, ensuring sufficient overfill. After filling, cool the filler with the Cooling Block and compress it with pressure. After a brief cooling period, remove the Cooling Block. Trim excess material with a Planer. Small fills or fine protrusions can also be addressed with sandpaper. Further processing such as oiling, painting, or staining can now be carried out.

Uses: Ideal for filling knotholes, wood cracks, joints and drill holes. It can be used on almost all surfaces such as solid wood and veneer, woodwork, chipboard, MDF and synthetic materials. For continuous use in production (10hrs). Fast melting phase, short cooling time. Accepts stains, waxes and oils. Mechanical grinding, cutting, planing, milling, brushing and also drilling possible.

- Can be used on almost all surfaces
- Fast melting phase, short cooling time
- High density and strong bond
- Very good adhesion of coating systems
- Easy to paint with NC, 2K, water and UV lacquers
- Mechanical grinding, cutting, planing, milling, brushing and drilling possible

Characteristics:

- Very hard, melting point at approx. 180°C/356°F

NEW MELTING GUN FOR IF-139 PLUS AND PA KNOT FILLER

Uses: Thermostat-controlled melting gun - for melting and applying fillers IF-139 PLUS and PA Knot Filler. Includes set screw for optimal feeding of filler sticks.

- 330 Watts
- 220-240 V
- 130°-230°C
- Ø 11-11.5 mm

Art.No.	Product Name
HK-139-330	Melting Gun HK-139-330

Further information, instruction sheet and more: Scan the QR code and you'll find all the information.

Additional tools for processing IF-139 PLUS and PA knot filler:

Rali Planer Monoblock 105 (161600)

Replacement Blades for Rali Planer, 10 pcs (161604)

Planer, 50mm Leitz-Cutter (161610)

Cooling Block 120 (161605)

PA KNOT FILLER | 25CM STICKS

PLEASE ALSO TAKE A LOOK AT PAGE 35, WHERE YOU WILL FIND OUR PA KNOT FILLER PRO SET!

Uses: Quick filling of knotholes, wood cracks, joints and drill holes. Ideally suited for the quick repair of defects. Very good adhesion to wood, veneer, woodwork. Solid, does not shrink. Fast melting phases and short cooling times (only seconds).

Characteristics: Based on polyamide. Ø11mm. Hard and flexible, melting point at approx. 160°C.

Art.No.	Product Name
11-134..	10 x 25cm, Stick*

* Add the desired colour number to the order code.

TOUCH-UP PRODUCTS

PRACTICAL, HANDY, EFFECTIVE

Whether clear, glazing, or opaque, whether tincture, lacquer, or concentrate – with our retouching products, you are equipped for any damage situation. With the Brush Pen Clear Lacquer, you can seal a repaired spot or adjust the gloss level of a surface. For a glazing retouch, you have the Graining Pen for the finest lines and textures, as well as the Felt Touch-Up Dye Pen at your disposal. For opaque, coloured painting, you can choose between the Brush Pen Covering Lacquer with the brush tip and the PREMIUM Edge Pen with the firm felt tip. Both pens are filled with weather-resistant and lightfast acrylic lacquer. The PREMIUM Window Pen, also filled with opaque lacquer, is characterised by its plasticiser-resistant quality, making it ideal for use in window areas. In summary, all our retouching products stand out due to:

- Very short drying periods
 - Resistant to wiping and water
 - High coverage and good adhesion
 - Colours can be mixed with each other
 - Tailored to the König fillers
 - Overcoatable with Sprüh-König® lacquers
 - Weather-resistant and lightfast
 - Replacement tips available
- Clear / Transparent
 - Glazing
 - Suitable for indoor use
 - S.A. Custom colours available as special orders
 - Opaque
 - Water-based
 - Suitable for outdoor use

BRUSH PEN COVERING LACQUER

Uses

The quick touch-up by brush. For the pre-colouring of small and medium-sized damage and for spot retouching and lacquering on décor, plastic and metal surfaces in interior and exterior areas.

Characteristics

A covering lacquer pen with an integrated brush. High opacity. Good adhesion. Lightfast and weather-resistant. Acrylic-based. Sheen level: silk matt. Overcoatable with all König touch-up and spray lacquers.

Art.No.

288000-207 Single pen, standard colour at choice*

PREMIUM EDGE PEN

Usage example: Shake the pen for about 30 seconds. Pressure can build up inside the pen due to external factors. To prevent dripping, pressure equalization must be performed. Remove the cap and hold the pen with the tip facing upwards. Press "P" briefly to vent the pen. To activate, hold the pen with the tip facing downwards. Press "P" to slowly fill the tip with paint. Place the pen tip at a shallow angle with light pressure. The valve will open, allowing the paint to flow in a well-dosed and continuous manner.

Uses

The innovative Premium pen for the opaque colouring of corners, edges and grooves on wood and décor surfaces. Recommended for indoor and outdoor use.

Characteristics

Dries quickly, wipe-resistant, scratch-proof and overcoatable. Optimised acrylic-based lacquer quality for a continuous lacquer flow. Acrylic-based

PREMIUM WINDOW PEN

Recommended by RENOLIT and other leading manufacturers for years, the PREMIUM Window Pen is a model of success in the window sector. It stands out with its special paint quality, unique valve technology, and a tip perfectly suited for the application. A consistent paint flow is guaranteed, and the shape of the tip allows for optimal colouring of mitre grooves as well as precise work in difficult areas (corners, tight spaces). Different line widths can also be achieved effortlessly. Additionally, the tip can be replaced when worn out. The perfect interaction of the individual system components (valve system, modified tip, and optimised paint quality) makes the PREMIUM Window Pen unbeatable!

Uses

A covering lacquer pen for the colouring of mitre joints. Optimised tip and lacquer quality ensure a continuous lacquer flow. Recommended for indoor and outdoor use.

Characteristics

Quick-drying, smear-resistant, scratch-resistant, and paintable. Made with an acrylic base. Resistant to plasticisers. Certified weather resistance: The ift Rosenheim certifies the PREMIUM Window Pen with weather resistance according to EN513/ISO4892-2 (test number 12-001800-PR02), which is also required in RAL GZ 716/1, for example.

KING AIRBRUSH SYSTEM

SPRAY WHATEVER YOU WANT...

The handheld spray device, KING, developed in collaboration with Krautzberger, operates with resealable paint cartridges. This system enables precise spraying even on the smallest surfaces and is therefore excellent for repair and maintenance work. The system is characterized by:

- Enables clean overhead work
- Easy cartridge replacement
- Facilitates precise application
- No risk of splattering or leaking
- Resealable cartridges
- Very short drying times

KING SPRAY DEVICE

Uses

Highly efficient hand-held spray device that works very economically with resealable paint cartridges. This system enables perfect spraying of small surfaces with minimal use of paint and is therefore ideally suited for repair and maintenance.

Characteristics

Hand-held spray device including hose with standard quick-release coupling for compressor (11mm), special grease, instructions for use - with nozzle cartridge in either Ø 0.3 mm or Ø 0.5 mm.

Art.No.

SPRÜH-KÖNIG® / AEROSOLS

QUALITY FROM THE CAN

With our Sprüh-König® brand, we offer you an aerosol range perfectly tailored to the needs of repairs. Whether for sealing repairs, adjusting gloss levels, creating effects, priming, preparing, or simply for opaque or translucent painting - it's entirely up to you. Our aerosols are characterized by:

- Very fast drying times
- Smear and water resistance
- Good adhesion
- Optimally matched to König fillers

- Clear / transparent
- Glazing
- Suitable for indoor use
- S.A. Special colour matches possible
- Opaque
- Water-based
- Suitable for outdoor use

SPECIAL REPAIR LACQUER PLUS

Uses

To seal repairs without showing overspray and to adjust the sheen of the surface. For indoor use on wood, décor and metal surfaces. Soft spray technology: considerably less spray mist, a smoother and pressure-reduced spraying and an even finer spray mist.

Characteristics

Transparent nitrocellulose combination lacquer, available from deep matt to gloss.

Art.No.	Product Name
336300-215	150ml, Deep Matt
337300-215	150ml, Matt
338300-215	150ml, Silk Matt

Further information, safety data sheet, and more: Scan the QR code and you'll find all the information.

SUPER HIGH-GLOSS

Uses

For the re-lacquering of small high-gloss surfaces such as profiles, frames and edges. To protect metal parts (brass, copper etc.) from oxidation and tarnishing, e.g. to be used for the repair of high-gloss finished musical instruments made from wood. Recommended for indoor use.

Characteristics

Transparent acrylic lacquer, can be used to create very thin coats, good adhesion properties.

Art.No.
353000-240

Product Name
Super High-Gloss, 400ml

Further information, safety data sheet, and more: Scan the QR code and you'll find all the information.

AQUA CLEAR LACQUER

Uses

A high build lacquer to seal repairs and to re-lacquer small parts. For interior use on wood, décor and metal surfaces. Ideal for oiled and waxed surfaces.

Characteristics

Water-based transparent acrylic lacquer. The environment-friendly alternative to the Furniture Lacquer PLUS. Odourless. Very little colour-intensifying effect.

Art.No.	Product Name
A34400-243	150ml, Silk Matt
A34200-242	400ml, Deep Matt
A34300-242	400ml, Matt
A34400-242	400ml, Silk Matt

ADHESION PRIMER

Uses

Adhesion Primer to improve lacquer adhesion on various plastics (PP, PVC, POM etc.) and metals in combination with König colour and clear coat systems. To increase paint adhesion on König fillers under mechanical stress. Recommended for interior and exterior use.

Characteristics

A physically drying system. A single application is sufficient. Matt film formation. Dries rapidly.

Art.No.

313700-240

Product Name

Adhesion Primer, 400ml

Further information, application video, safety data sheet, and more: Scan the QR code and you'll find all the information.

EFFECT LACQUER, GLIMMER

Uses

For large-area correction of repaired or plain-coloured, newly painted surfaces that only lack the glimmer effect. Suitable for indoor and outdoor use.

Characteristics

Acrylic-based clear lacquer with glimmer structure effect. Dries rapidly. Good adhesion to many lacquer and plastic surfaces (not to Soft-PVC).

Art.No.

352000915411-240

Product Name

400ml, Deep Matt

352000815411-240

400ml, Matt

352000715411-240

400ml, Silk Matt

400ml, Silk Gloss

352000515411-240

400ml, Gloss

Further information, safety data sheet, and more: Scan the QR code and you'll find all the information.

UNIVERSAL BASECOAT

Uses

For an embedding priming, e.g. as sealing primer for a new structure, as blocking primer for a repair, as smoothing primer for closed-porous surfaces. To be used on both light and dark woods. Recommended for indoor use.

Characteristics

A transparent lacquer based on nitrocellulose. Can be sanded after approx. 20 minutes. Little firing effect. Overcoatable with all König touch-up and aerosol lacquers. Sheen level: matt.

Art.No.

312000-240

Product Name

Universal Basecoat, 400ml

Further information, safety data sheet, and

more: Scan the QR code and you'll find all the information.

PRIME LACQUER WHITE

Uses

A high build and completely opaque primer, when body, interior parts, MDF-boards and chipboards are to be re-coated with a covering lacquer. A mobile spray system for priming. For indoor and outdoor use.

Characteristics

A white-tinted nitrocellulose-based primer. Physically drying system. Good cross-linking and flow properties with excellent hardness and resistance. Very good for sanding.

Art.No.

359000-240

Product Name

Prime Lacquer White, 400ml

Further information, safety data sheet, and

more: Scan the QR code and you'll find all the information..

ANTI STICK AGENT

Uses

Prevents sealing tape and not yet cured thick layer glaze on windows and doors from sticking together. Recommended for indoor use.

Characteristics

A colourless, wax-based product free from silicone.

Art.No.

322000-245

Product Name

Anti Stick Agent, 400ml

Further information, safety data sheet, and

more: Scan the QR code and you'll find all the information.

DIMETHYL ETHER

Uses

Propellant (with adapter valve) for all König aerosols.

Art.No.

999997-240

Product Name

Dimethyl Ether, 400ml

Further information, safety data sheet, and

more: Scan the QR code and you'll find all the information.

PRACTICAL TRAINING COURSES

KNOW HOW! CONTINUING EDUCATION PAYS OFF!

High-quality repair products and expertise for the best repair results all in one place!

For over 30 years, we have been offering seminars to our customers, with course content tailored to the diverse industries and applications. In theory and practice, we not only impart knowledge on the proper use of our products to you and your employees but also hone your observation and skills. Benefit from the decades of experience of our seminar leaders and learn the right techniques to achieve the best possible results with our products. Professional repair work is demanding and requires creativity, relying not only on high-quality materials but also on the knowledge of the correct procedures and the skilled application of proven techniques. At our seminars, you get all of this expertise in one place.

FURNITURE / INTERIOR

2 Days // 3-9 Participants

This seminar provides a comprehensive introduction to the basic principles of repair as well as advanced techniques for various types of damage such as scratches, holes, dents, and abrasions. Our seminar leaders/instructors will teach you different techniques for repair, both in theory and in practice. Practical exercises on decorative and real wood surfaces (wood and plain), stained and clear-coated real wood in various gloss levels will help you to consolidate what you have learned.

WINDOWS / FRONT DOORS

1 Day // 3-9 Participants

In this seminar, you will learn a variety of methods for repairing damage to windows and doors. Work together with our seminar leaders to understand the differences between real wood and plastic repair (films/décor, plain surfaces). In this way, you will get to consolidate theoretical knowledge via practical application.

FLOORING / STAIRS

1 Day // 3-9 Participants

Discover the König repair methods tailored to the needs of a floor/parquet installer. Specifically designed for your industry and everyday challenges, you will work with seminar leaders to understand the differences in processing real wood surfaces (parquet, stairs) as well as laminate, cork, linoleum, and vinyl. Practical exercises will help you to apply and consolidate the newly acquired theoretical knowledge.

TILES / NATURAL STONE

1 Day // 3-9 Participants

Get to know and master sophisticated techniques for the repair and restoration of natural stone, tiles, and porcelain stoneware. Our experienced instructors will provide you with practical knowledge. Learn different methods and options in theory as well as through practical exercises.

COMPONENTS / POWDER COATING

1 Day // 3-9 Participants

In this seminar, our instructors will show you how to repair damage to metal and powder coating surfaces. You will get to know the various methods and possibilities for repairing metal and powder coating surfaces, both in theory and via practical exercises.

ALL-IN-ONE

2 Days // 3-9 Participants

In this comprehensive seminar, you will learn to quickly, effectively, and sustainably repair a wide range of surface damages. Designed primarily for the facility services, hotels, and gastronomy sectors - where different types of damage occur on various surfaces such as furniture, flooring, natural stone and tiles, windows, and doors. Training and work will be conducted using our extensive ALL-IN-ONE Kit, specifically tailored to these diverse requirements.

By the way, you can find numerous tutorials on our YouTube channel. Learn how to repair various damages on different surfaces and achieve the best possible repair results through short tutorials. While these do not replace professional training, they assist in using products correctly and refreshing training content afterwards.

INDIVIDUAL SEMINARS

Duration/participants by arrangement

Are you interested in qualified training for your employees, with seminar contents **specifically tailored to your individual needs**? Or are you interested in a seminar **directly at your location** or in **individual coaching sessions**?

Contact us, we will be happy to advise you on your options. You can reach us by phone at +49 (0) 6101. 5360 - 0 or by email at sales@heinrich-koenig.de

KITS, SETS AND SYSTEMAINERS

WELL STORED, EVERYTHING INCLUDED

Explore our assortments - whether for the workshop, production, or on-site use with customers: The systems are optimally tailored to a wide range of needs and applications, and are extremely practical and well-organized in wooden or plastic cases and functional systainers.

ALL-IN-ONE KIT | 603005

The ALL-IN-ONE Kit is our all-rounder! With this kit, you are well equipped for all types of damage: Small scratches on cupboard doors, chipping on sanitary facilities, old drill holes or damage to tiles, scuff marks on door frames and skirting boards and much more. Repair a wide range of surface damage quickly, to a high standard and sustainably. Save costs and time-consuming replacement work and make rooms and objects look really good again. That's why the ALL-IN-ONE Kit is ideal for facility services, hotels and the gastronomy/catering sector. You are guaranteed to always find exactly what you need in this kit: the fillers Duo Royale, Soft Wax, Hard Wax, Hard Wax PLUS, Rex-Lith, Ceramic Filler as well as fillers for natural/artificial stone and sanitary ceramics. You will also receive various retouching products such as our PREMIUM Edge Pen and Brush Pen, the Touch-Up Paint Box and all the necessary aids and tools.

UNIVERSAL KIT FURNITURE/INTERIOR FINISHING 1 | 603001

The Universal Kit 603 001 is the comprehensive system for the professional, high quality repair of nearly any kind of damage on wood and décor surfaces in the interior area (furniture, stairs, floorings). From Quick Filler, Soft Wax and Hard Wax series to Rex-Lith¹⁾ to numerous touch-up materials, the kit comprises all products required to execute a good repair. All necessary accessories and processing tools are also included as well as clear lacquers for sealing. Despite its large range of products, this kit offers a well-structured interior where everything has its place. With drawers, pull-out compartments and pen holders everything is variable and can be arranged according to your individual needs in a very flexible way like a shelving system. The kit can be used in the workshop as well as on-site at the customer's premises.

REPAIRLUX® from König offers the professional solution for repairing damage to polished or polishable natural and artificial stone (e.g. worktops, stairs, floor coverings, tiles, window sills). Next to all the necessary auxiliaries, the kit contains light-curing fillers and lamps specifically developed for curing. With our large REPAIRLUX® System 403000 you will be well-equipped to master a wide range of tasks. With the Power Light technique, the fillers are cured in a matter of seconds. The colour palette, granules and mica materials can be used to imitate both optical and structural natural stone effects with astonishing realism.

NEW PA KNOT FILLER PRO SET | 8013800

The PA Knot Filler PRO Set comes in a handy systainer and contains everything you need for professionally filling knotholes, wood cracks, joints, drill holes and other defects.

The PA Knot Filler is developed on a polyamide basis and delivers a permanently flexible, elastic result. It impresses with its fast melting phases and short cooling times, and it follows the swelling and shrinking movements of the wood. It does not sink even if it is only filled once - even with larger holes. The PA Knot Filler can be used on solid wood, veneer, wood materials, chipboard, MDF as well as for formwork boards and much more.

CLEANING & MAINTENANCE

THOROUGH, GENTLE, SUSTAINABLE

With high-quality cleaning and care products, we complement the König product range for restoration. Tailored to different needs and various surfaces, we offer a wide selection of powerful products for both professional and private use.

- For varnished 1-C surfaces
- For oiled and/or waxed wood surfaces
- For décor and plastic surfaces
- Suitable for indoor use
- Suitable for outdoor use
- Water-based

NEW AQUA SOFT-CLEANER

Uses
 For thorough cleaning of foil-coated surfaces, our AQUA Soft-Cleaner is the perfect solution. Its special formula works especially well on matt and super matt foils (such as Skai®mattex or RENOLIT PX Matt), without altering the gloss level of the foil. It reliably cleans plastic window profiles (PVC, white and coloured) as well as painted, non-absorbent surfaces. The cleaner effortlessly removes marker lines, labels, adhesive residues, and remnants of protective films, as well as bitumen, butyl, and foreign body abrasion (e.g., rubber). It also effectively eliminates emission deposits and construction dirt, both indoors and outdoors.

Characteristics
 A non-etching emulsion based on water. Antistatic. Perfect for industrial applications.

Art.No. A54200-605
Product Name AQUA Soft-Cleaner, 150ml
 A54200-616 AQUA Soft-Cleaner, 1 litre

More information: Use the QR code and you will find additional information about the product.

SPECIAL CLEANER

Uses
 Specifically designed for the cleaning and maintenance of white UPVC windows and doors. Also to be used for anodized aluminium windows and doors. Removes light to medium soiling with ease. For indoor and outdoor use.

Characteristics
 Provides a glossy, silky appearance. Because of its grease-cutting properties, it is recommended to wear rubber gloves while processing the Special Cleaner.

Art.No. 325100-245
Product Name Special Cleaner, 400ml

More information: Use the QR code and you will find additional information about the product.

NOTE If you have any questions regarding our Systainers and Kits or the individual items in them, simply contact our export team sales@heinrich-koenig.de We will be happy to answer any questions you may have.

PLASTIC CLEANER

Uses

For intensive cleaning of all plastic and melamine resin surfaces on furniture and accessories. Removes grease marks, fingerprints, pencil and ball point pen stains. Also suitable for the removal of old stickers. For indoor and outdoor use.

SLIDING AGENT

Uses
To improve lubrication of joints made of wood, plastic and metal. A mobile spray system for on-site use.

Characteristics
A colourless wax-based product. Silicone-free.

Art.No. 321000-245
Product Name Sliding Agent, 400ml

More information: Use the QR code and you will find additional information about the product.

SPRAY LUBRICANT

Uses
For spraying onto metal and plastic fittings to ensure smooth and easy handling. Suitable for indoor and outdoor use.

Characteristics
Oil/solvent-based product with rust-dissolving and creeping properties.

Art.No. 398000-275
Product Name Spray Lubricant, 75ml

More information: Use the QR code and you will find additional information about the product.

OIL SPRAY (IDEAL FOR THE FOOD INDUSTRY)

Uses
For the smooth running of machines and aggregates used in the production of food and beverages. Lubricates uniformly and quickly all moving and difficult to access machine parts.

Characteristics
High-quality, special resin-free oil (paraffin oil according to DAB 10, FDA 21 CFR 178.3620(a), BGA-155, USDA-H1).

Art.No. 398400-240
Product Name Oil Spray, 400ml

More information: Use the QR code and you will find additional information about the product.

TOOLS & AUXILIARIES

ALWAYS THE RIGHT TOOL AT HAND

To complement our repair products, we offer a wide range of suitable tools and accessories that enable you to process the products optimally and achieve the best results. All our tools are designed to work seamlessly with our products and have proven themselves over years of use. They support the entire spectrum of repair activities.

- Melting, Inserting, Filling
- Sanding, Planing
- Levelling
- Polishing, Cleaning
- Retouching
- Colour mixing, Mixing, Thinning

MELTERS / AUXILIARIES

GAS HEATING IRON

Characteristics

A mobile, gas-operated melting tool for the processing of meltable fillers: for melting, molding and colour mixing. The temperature is infinitely adjustable. Because of legal regulations, the Gas Heating Iron is supplied in unfilled condition. We recommend to use high-quality pure butane lighter gas from renowned manufacturers.

Technical data:

Length 177 mm / Weight: 60 g / Operating time: approx. 3 hours (dependent on setting) / Maximum temperature: 240°C / Flint included in delivery.

439018

ELECTRIC HEATER

Characteristics

A stationary electrical melting device for continuous operation, serving the same range of use as the Gas Heating Iron. Easy to use due to temperature setting adapted to the different kinds of fillers.

Technical data:

Heater: Voltage: 12 V / Power: 25 W / Lead: 2.5 m / Transformer: Primary voltage 230 V, 50 Hz / Secondary voltage 12 V / Nominal power: max. 30 W / Temperature setting: infinitely variable, with scale of range / Function indicator: red LED

BATTERY MELTER, TRANSPARENT

Characteristics

The Battery Melter Transparent is designed for melting fillers such as Hard Wax and Ceramic Filler. The melter features a curved tip for mixing and optimal application of the fillers, even in corners and edges. Additionally, excess wax can be easily removed using the grooves on the melter. Equipped with batteries, the Battery Melter Transparent is ready for mobile use. With the multi-adapter, it can also be operated on mains power. The melter is supplied with a user manual and 3 batteries (1.5 V AA batteries).

PLANING / LEVELLING

SPECIAL FILLERS APPLICATOR

The clever solution for processing fillers. Effortless application and levelling of Soft Wax, planing of Hard Wax, Hard Wax PLUS and Ceramic Filler without scratching the surrounding surface. Final filler residues can be removed with the fleece which is stored inside the tool.

Elements: Corpus with planer grooves, drawer with cleaning comb, sanding and polishing cloth (small) and sanding pad (coarse).

Art.No.
161149-420

Product Name
Special Fillers Applicator (transparent)

COMBINATION PLANER

The Combination Planer consists of the modified Special Fillers Applicator with integrated mini Metal Planer blade. This combination tool levels all kinds of König fillers. 90 degree inner edges can be treated not only with the blade of the Metal Planer but also, thanks to an altered groove direction, with the body of the Special Fillers Applicator.

Art.No.
161700-420

Product Name
Combination Planer

SPECIAL SCRAPER

To level the filled area evenly and to remove lacquer runs and bumps in the lacquer surface. High-quality steel, tempered and sharpened cutting edges. Special Scraper "small": specifically designed for removing scratches in white UPVC window frames, particularly well suited for difficult-to-reach areas.

Art.No.

Special Scraper
160x50mm
Special Scraper small,
75x50mm

METAL PLANER

A precision tool for the gentle levelling of all solid König fillers. It is also an effective tool to remove imperfections in the finish like runs and sags. Precise working possible without scratching the surrounding area. An embedded magnet allows the planer blade to conveniently snap into place. The high-quality blade made of chrome vanadium steel can be used on both sides. The leather protective cover is included in delivery.

Mini Metal Planer: The smaller version of the Metal Planer with a mini chrome / vanadium blade sits on a cork sole, which can also be used as an abrasive cork for sandpaper.

Product Name
Universal Spatula

SANDING / POLISHING

SANDING LIQUID

Art.No.
655500-605
655500-601

Product Name
Sanding Liquid,
150ml
Sanding Liquid,
250ml

For use with Sandpaper, wet and Micro Sanding Paper.

POLISHING PASTE, FINE

Art.No.
655600-605
655600-601
655600-616

Product Name
Polishing Paste, fine, 150ml
Polishing Paste, fine, 250ml
Polishing Paste, fine, 1 litre
To polish out fine sanding streaks and abrasion on high gloss surfaces. Water-based product - does not leave any residue.

BASIC POLISH

Art.No.
521000-605

Product Name
Basic Polish, 150ml

For pre-polishing before using High-End Polish. For buffing out fine "sanding streaks". Suitable for polyester coatings, polyurethane (PUR) varnishes, acrylic varnishes, Plexiglas, metal, rigid PVC, powder coatings. Polishing paste for hard and soft PVC surfaces.

HIGH-END-POLISH

Art.No.
521100-605

Product Name
High-End-Polish, 150 ml

For levelling out fine sanding streaks on high-gloss surfaces. Suitable for polyester coatings, polyurethane (PUR) varnishes, acrylic varnishes, Plexiglas, metal, rigid PVC, powder coatings. Can also be used as a polishing paste for hard and soft PVC surfaces, not suitable for shellac surfaces.

SANDING PAD, COARSE

Art.No.
609003

Product Name
Sanding Pad, 100x60mm,
coarse

To remove filler residue with a light sanding effect and to dull shiny spots. Grit: 1500.

WIRE WOOL, EXTRA FINE

Art.No.
413600-409
413000
413600-075

Product Name
Wire wool, 50g
Wire wool, 200g
Wire wool, 6kg

For finest lacquer sanding, to tone down a heavy application of touch-up products and for the gentle cleaning of the melter tips (Gas Heating Iron, Battery Melter and Electric Heater).

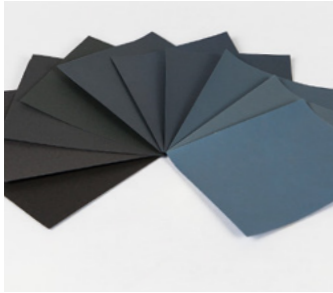

MARKING PEN

With the Marking Pen (reddish), you can colour in damages on PVC profiles, making even very fine scratches visible. Afterwards, these can be sanded out or scraped off with a rounded lacquer scraper.

Art.No.	Product Name
206000-169	Marking Pen

SANDPAPER, WET

Art.No.	Product Name
415024	A4 sheet, grit 240
415028	A4 sheet, grit 280
415032	A4 sheet, grit 320
415040	A4 sheet, grit 400
415050	A4 sheet, grit 500
415060	A4 sheet, grit 600
415080	A4 sheet, grit 800
415100	A4 sheet, grit 1000
415120	A4 sheet, grit 1200

For an optimal preparation of varnished surfaces and metal prior to varnishing or painting.

SANDPAPER, DRY

Art.No.	Product Name
414010	A4 sheet, grit 100
414015	A4 sheet, grit 150
414018	A4 sheet, grit 180
414024	A4 sheet, grit 240
414028	A4 sheet, grit 280
414032	A4 sheet, grit 320
414040	A4 sheet, grit 400

For an optimal preparation of wood and plastic surfaces prior to varnishing or painting.

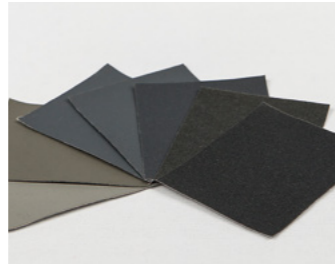

SET OF GRADUATED SANDPAPER

Art.No.	Product Name
609002	Sandpaper Assortment 16x ¼ sheet (DIN A6)

Assortment for different kinds of surfaces: dry sandpapers for wood and plastics, wet sandpapers for metal and varnished surfaces. Dry Sandpaper, 2 sheets each: grits 150, 180, 240, 280, 320. Sandpaper, wet, 2 sheets each: grits 400, 500, 600.

MICRO SANDING PAPER

Art.No.	Product Name
412218	Grit 1800, 12x15cm
412224	Grit 2400, 12x15cm
412232	Grit 3200, 12x15cm
412240	Grit 4000, 12x15cm
412260	Grit 6000, 12x15cm
412280	Grit 8000, 12x15cm
412320	Grit 12000, 12x15cm
412007	Assortment*

To polish out fine scratches on all varnished surfaces, acrylic/perspex, polyester, Hard-PVC, brass and aluminium. Excellent results on high-gloss surfaces. Application of wet sanding method. Can be washed out. *The assortment comprises 1 sheet each per grit, sized 6x 7,5cm.

CORK SANDING BLOCK

Art.No.	Product Name
418000	Cork Sanding Block, small 60x33x26mm
418100	Cork Sanding Block with Felt Pad 60x33x39mm

Cork Sanding Block: For use with König Sandpaper. Cork Sanding Block with Felt Pad: For use with König Sandpaper and Cotton Cloths. Also suitable for polishing with Polishing Paste.

FELT PAD

Art.No.	Product Name
419000	Felt Pad
420000	Felt Pad with abrasive fleece (1500 grit)

The Felt Pad is used with Cotton Cloths to remove filler residue and to apply Polishing Paste. The version with abrasive fleece is used for removing filler residue, matting and degreasing surfaces.

COTTON CLOTHS, WASHED

Art.No.	Product Name
422000-402	Cotton Cloth (DIN A5), bag of 5
422000-403	Cotton Cloth (DIN A5), bag of 10
422000-405	Cotton Cloth (DIN A5), bag of 100
425000	Cotton Cloth, approx. 40x40cm, 1kg

Used together with Felt Pad and Liquid Sandpaper to remove filler residue. For cleaning and maintenance work. Cotton texture, washed.

SPECIAL CLOTH

Art.No.	Product Name
426501	Special Cloth, approx. 33x37cm, 40 pcs

A highly absorbent, lint free and tearproof textile cloth. Indispensable for all cleaning, sanding and polishing work. Very gentle to high-gloss surfaces.

CLEANING CLOTH, YELLOW

Art.No.	Product Name
421500	Cleaning Cloth, yellow

The cleaning cloth is suitable for polishing various surfaces. The cloth is recommended for both smooth and textured and sensitive surfaces.

SANDING AND POLISHING CLOTH

Art.No.	Product Name
411000-420	Sanding and Polishing Cloth, 10x13cm
411000-402	Sanding and Polishing Cloth, 10x13cm, 5 pcs
411000-403	Sanding and Polishing Cloth, 10x13cm, 10 pcs

White side to dull shiny patches on the surface, to clean plastic and varnished wood surfaces and to remove spray mist. Green side for polishing and to produce a gloss finish on matt surfaces.

MIXING / STIRRING / RETOUCHING

MIXING CUP

Art.No.	Product Name
641120	Mixing Cup, 40ml
403040	Mixing Cup, 350ml for REPAIRLUX®

For practical dosing and mixing of e.g. Polyester Filling Lacquer¹⁾. Also suitable as a container for Cellulose Thinner.

SPATULA

Art.No.	Product Name
162001	Spatula

To mix Rex-Lith¹⁾ with hardener¹⁾ and to apply AQUA Filler.

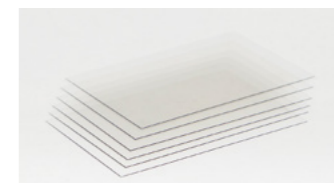

MIXING SPATULA

Art.No.	Product Name
641220	Mixing Spatula

To mix Polyester Filling Lacquer¹⁾ with hardener¹⁾.
Packaging unit: 20 pcs.

PLASTIC FILMS

Art.No.	Product Name
162000	Plastic Films, 89x60mm

A transparent solvent-resistant foil with a variety of possibilities for use such as mixing colours over a surface, processing Rex-Lith, especially on edges.

MIXING PALETTE

Art.No.	Product Name
603095	Mixing Palette 140x105x15mm

A handy mixing palette with a solvent-resistant surface and drilling holes for a safe stand of mixing cups and brushes.

PIPETTE

Art.No.	Product Name
295000	Pipette
295200	Pipette with an ultra-thin tip (for Rex-Lith Color Concentrate)

For the precise extracting/dosing of touch-up dyes and to refill Felt Touch-Up Dye Pens.

RED MARTEN BRUSH

Art.No.	Product Name
430001	Red Marten Brush No. 1
430002	Red Marten Brush No. 2
430003	Red Marten Brush No. 3
430004	Red Marten Brush No. 4
430005	Red Marten Brush No. 5
430006	Red Marten Brush No. 6
430123	Assortment of 3 (No. 1-3)

Meets highest demands when retouching with Touch-Up Dye, Colour Touch-Up and the Touch-Up Paint Box.

SQUIRREL HAIR BRUSH

Art.No.	Product Name
429001	Squirrel Hair Brush No. 1
429002	Squirrel Hair Brush No. 2
429003	Squirrel Hair Brush No. 3
429004	Squirrel Hair Brush No. 4
429005	Squirrel Hair Brush No. 5
429006	Squirrel Hair Brush No. 6
429123	Assortment of 3 (No. 1-3)

For the fine touch-up by brush, an economical alternative to the Red Marten Brush.

DILUTING / CORRECTING

MOISTURE AND BLOOM REMOVER PLUS

Uses

To remove grey bloom, water and alcohol stains on NC lacquered surfaces. For indoor use.

Characteristics

A fast reacting lacquer dissolvent, providing a complete new formation of the upper lacquer coat.

Art.No.

319000-245

Product Name

Moisture and Bloom Remover PLUS, 400ml

More information: Use the QR code and you will find additional information about the product.

LIQUID SANDPAPER

Art.No.

711000-605 Liquid Sandpaper, 150ml
711000-600 Liquid Sandpaper, 1 litre
711000-603 Liquid Sandpaper, 10 litre

To degrease the surface prior to a repair. For the gentle removal of filler residue.

CELLULOSE THINNER

Art.No.

710000-605 Cellulose Thinner, 150ml
710000-600 Cellulose Thinner, 1 litre
710000-603 Cellulose Thinner, 10 litre

For the thinning of all König NC- and acrylic lacquers, for the glazing adjustment of Colour Touch-Up, and to dissolve the paint chips in the Touch-Up Paint Box. Can be used as brush cleaner.

SPARE TIPS / SPRAY NOZZLES

SPRAY CAN HANDLE

Art.No.

399100

Product Name

Spray Can Handle

The Spray Can Handle as an attachment to aerosol cans allows for convenient continuous spraying.

SPARE TIPS FOR PEN SYSTEMS

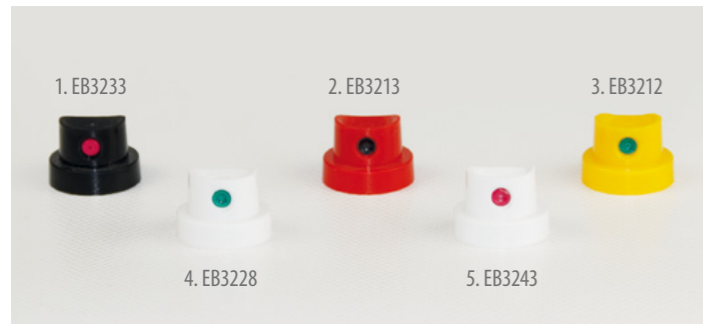

Art.No.

*bag of 10 pcs.

SPRAY NOZZLES

Art.No.

1. EB3233 Swirl nozzle, big orifice: For wet varnishing of whole surfaces. Recommended for Universal Basecoat. Also suitable for Sliding Agent, Anti Stick Agent and all maintenance products in a spray can.
2. EB3213 Swirl nozzle, medium orifice: For wet spraying during repairs. Recommended for Furniture Lacquer PLUS, PF/PFH Covering Lacquer.
3. EB3212 Swirl nozzle, small orifice: For very fine misting. Recommended for Super High Gloss, Shade Equalizer P or LP, Moisture and Bloom Remover PLUS.
4. EB3228 Swirl nozzle, white: for AQUA Clear Lacquer.
5. EB3243 Swirl nozzle-soft spray technology: For Special Repair Lacquer PLUS, Clear Lacquer PLUS as well as Covering Lacquer PF and PFH.

FOR IF-139 PLUS / PA KNOT FILLER

MELTING GUN HK-139-330

Uses

Melting gun with thermostat - for melting and applying the IF-139 PLUS and PA Knot Filler. Includes set screw for optimal feeding of the filler rods.

- 330 Watts
- 220-240 V
- 130°-230°C
- Ø 11-11.5 mm

Art.No.

HK-139-330

Product Name

Melting Gun HK-139-330

RALI PLANER MONOBLOCK 105

Art.No.

161600

Product Name

Rali Planer Monoblock 105
Special planer for the removal of hard fillers such as the Industrial Filler IF-139 PLUS. The blades can be changed and are available in replacement packs of 10 each. With the Rali planer, the coarse excess of fillers can be removed very easily in order to then sand the surface (e.g. with a belt sander).

SPARE BLADES FOR RALI PLANER MONOBLOCK

MISCELLANEOUS

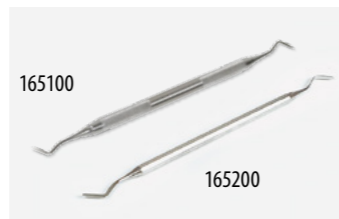

EDGE PLANER

Art.No. 165000-420
Product Name Edge Planer

To cut off damage edges on décor surfaces. The rounded side of the Edge Planer is used to level damage edges on solid wood and veneer.

MODELLING INSTRUMENTS

Art.No. 165100
Product Name Modelling Instrument, H3S

Art.No. 165200
Product Name Modelling Instrument, 116/0

For filling and fine adjustment of e.g. REPAIRLUX® fillers.

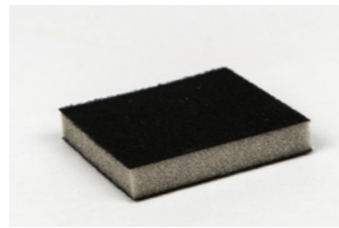

MAGNIFYING GLASS

Art.No. 434000
Product Name Magnifying Glass

For the improved evaluation of both damage substrate and damage edges. To identify fine grain patterns.

MAINTENANCE SPONGE

Art.No. 515101
Product Name Maintenance Sponge

Sponge for the processing (application) of Universal Maintenance Lacquer.

BRASS BRUSH

Art.No. 407000
Product Name Brass Brush

For the gentle cleaning of tools such as the Metal Planer blade.

LACQUER CLOTH

Art.No. 421100-420
Product Name Lacquer Cloth

To prepare surfaces for the lacquering process or to remove unpleasant spray mist after lacquering without leaving any residue. Dust and dry dirt will be completely absorbed. The carrier material is a high-quality, loose gauze-fabric allowing dust to enter into the inner layers whilst reliably binding it. The impregnation is completely free from silicone and waxes, absolutely harmless to any type of lacquering and will not dry up.

PICOBELLO® SPECIAL KITS, PENS AND MORE ...

With our end consumer brand picobello®, we offer you interesting products and refined ideas for industry, trade, and crafts. Increase your level of service and reduce complaint costs! Products for your service, such as small repair kits, touch-up pens, and waxes, as well as care and cleaning products can be used as commission inserts, counter displays, or giveaways. Our private label service is also available here: Strengthen your brand further, increase your presence, and have the picobello® products manufactured according to your corporate identity.

PICOBELLO® PREMIUM REPAIR SET (FOR LACQUERED REAL WOOD/DÉCOR SURFACES)

Uses: This Repair Set is ideal for repairing scratches, small holes, pressure marks and edge damage on e.g. parquet, laminate, interior doors or furniture, kitchen fronts as well as cork and vinyl (design flooring). Includes Battery Melter, Special Fillers Applicator and AQUA Brush Pen Clear Lacquer for sealing.

Set contents: 15x Hard Wax, 1x AQUA Brush Pen Clear Lacquer (Gloss), 1x Battery Melter, 3x Battery (Micro 1.5 V AA), 1x Special Fillers Applicator, 1x Lint-free Cloth, 1x illustrated instruction sheet.

Art.No. G61403
Product Name PREMIUM Repair Set, lacquered surfaces

PICOBELLO® PREMIUM REPAIR SET (FOR OILED AND WAXED REAL WOOD SURFACES)

Uses: Especially suitable for oiled and waxed real wood surfaces. For repairing scratches, small holes, pressure marks and edge damage on e.g. parquet and furniture. Repair Set including Premium Special Oil and AQUA Brush Pen Clear Lacquer for sealing. Recommended for indoor use.

Set contents: 15x Hard Wax, 1x AQUA Brush Pen Clear Lacquer (Gloss), 1x Battery Melter, 3x Battery (Micro 1.5 V AA), 1x Premium Special Oil (10 ml), 1 Special Fillers Applicator, 2 x Sanding Paper (Grain 150 and 240), 1x Lint-free Cloth, 1x illustrated instruction sheet.

Art.No. G61412
Product Name PREMIUM Repair Set, oiled and waxed surfaces

PICOBELLO® MEDIUM REPAIR SET (FOR WOOD/DÉCOR SURFACES)

Uses: For repairing scratches, small holes, pressure marks and edge damage. Can be used on real wood and decorative surfaces such as parquet, laminate, interior doors or furniture, kitchen fronts as well as cork and vinyl (design floors). Recommended for indoor use.

Set contents: 11x Hard Wax, 1x Battery Melter, 3x Battery (Micro 1.5 V AA), 1x Spatula, 1x Sanding Pad (coarse), 1x Lint-free Cloth, 1x illustrated instruction sheet.

Art.No. G61404
Product Name MEDIUM Repair Set

PICOBELLO® MINI REPAIR SET (FOR LACQUERED REAL WOOD/DÉCOR SURFACES)

Uses

This Repair Set is ideal for repairing chips, scratches and other types of cosmetic damage to items such as furniture, laminate / real wood flooring and kitchen worktops. Recommended for indoor use.

Set contents

4x Hard Wax (in different assortment), 1 Mini Melter, 3x Battery (Micro 1.5 V AA), 1x Spatula, 2x Sanding Pad (coarse), 1x Lint-free Cloth, 1x illustrated instruction sheet.
